

## 18th century water-operated automoton diorama

Sold

REF: 1020 Height: 36 cm (14.2") Width: 53 cm (20.9") Depth: 15 cm (5.9")

## Description

Throw away the Playstation and entertain yourself with this 18th century water operated automaton diorama.

Water, poured into a hole in the top, flows over the mountainous landscape, down the waterfall and turns the water mill. Probably made in the 18th century equivalent of a garden shed this truly is a unique piece.
