

Georgian fourteen stone diamond gold ring

£3,850

Description

A fine Georgian diamond ring of fourteen old cushion cut diamonds in two rows on and 18ct yellow gold shank. Approx 2.0 ct total

Old cushion cut diamonds are known for their charm. Unlike modern cushion cuts, these antique gems feature larger facets and a chunkier, pillow-like shape that enhances their soft glow and brilliance under candlelight.

Hand-cut, each old cushion cut diamond is unique, reflecting the craftsmanship of a bygone era. They typically display a lower colour and clarity than modern stones, yet their warmth and character make them highly sought after by collectors and vintage jewellery lovers.

These diamonds embody timeless elegance and are treasured for their historical and aesthetic value.
