

Pair of Art Nouveau rose gold cufflinks

Sold

REF: 6080

Description

A pair of Art Nouveau 9ct rose gold cufflinks, circa 1910.

Rose gold is a warm, pink-hued alloy of gold, copper, and sometimes silver. Its distinct colour comes from the copper content, which gives it a romantic, vintage appeal. Popular in jewellery and watches, rose gold blends classic elegance with a modern twist, making it a favoured choice for stylish accessories.
