

18ct white gold diamond half eternity ring

£795

Description

An 18ct white gold half eternity ring set with twelve brilliant cut diamonds.

A half eternity ring is a timeless symbol of love and commitment, featuring a row of gemstones-most often diamonds-set across the top half of the band.

Unlike full eternity rings, which have stones encircling the entire band, half eternity designs provide both beauty and practicality, offering greater comfort and easier resizing.

They are popular choices for wedding bands, anniversaries, or milestone celebrations, as they represent enduring devotion.

UK Ring Size: O
