

Art Deco tiger's eye necklace

£45

REF: 6512

Description

An impressive Art Deco multi-strand tiger's eye bead necklace.

Tiger's Eye is a stunning golden-brown gemstone known for its chatoyancy, a silky, reflective optical effect resembling a cat's eye. Formed from quartz, it exudes warmth and vibrancy, often associated with strength, protection, and confidence. Popular in jewellery, Tiger's Eye is believed to promote mental clarity and courage while grounding its wearer. Its rich bands of earthy tones make it a favourite for both spiritual and aesthetic purposes, adding natural elegance to any collection or outfit.
