

Single strand of progressing oval cherry amber

£165

Description

A single strand of progressing oval cherry amber beads with a 9ct yellow gold clasp, circa 1915.

Cherry amber is a vibrant, deep red variant of fossilised tree resin prized for its striking beauty and organic origins. Often used in jewellery, it exudes a warm, translucent glow and symbolises energy, vitality, and passion.

This rare amber variety is sought after by collectors and artisans for its timeless elegance, historical significance, and unique ability to preserve ancient inclusions like insects or plants.
