

White gold Art Deco sapphire solitaire ring

Sold

Description

Circa 1920 white gold Art Deco sapphire solitaire ring with ornate pierced gallery,

UK Ring Size: L

A solitaire ring is a timeless piece of jewellery featuring a single, striking gemstone as its centrepiece. Celebrated for its simplicity and elegance, the solitaire design emphasises the stone's brilliance, allowing it to stand out without distraction.

The band is typically crafted from precious metals like gold, platinum, or white gold, offering a refined backdrop. Solitaire rings are especially popular as engagement rings because they symbolise unity, commitment, and enduring love. Their versatility makes them easy to pair with other jewellery, while their classic appeal ensures they remain stylish across generations and personal fashion trends.
